The cost of solar roofing tiles is \$21 to \$40 per square foot installed or \$4 to \$14 per watt, depending on the brand, style, roof size and complexity, and kW needed. Solar shingles typically cost more than solar panels. *Includes roof replacement. Before tax credits and incentives. Get free estimates from solar panel installers near you.

Are solar roof shingles worth it?

Solar roof shingles are typically not worth the high cost and may not pay for themselves in their lifetime. However, a solar roof reduces electric bills, is usually considered more aesthetically appealing than solar panels, and is more likely to receive HOA approval in some communities.

How much do Solar shingles cost?

These photovoltaic (PV) materials replace or overlay your current shingles, converting sunlight into electricity. Solar shingles are typically more expensive than standard panels, with costs ranging from \$15,000 to \$20,000 for an average installation, but they offer a more streamlined look and can increase the value of your home.

Is a solar roof better than a traditional roof?

However, a solar roof reduces electric bills, is usually considered more aesthetically appealing than solar panels, and is more likely to receive HOA approval in some communities. Traditional solar panels produce more power, cost less, and provide a higher return on investment (ROI) than a solar roof. Does a solar roof increase home value?

How much does a Tesla Solar Roof cost?

The Solar Roof includes both photovoltaic shingles and inactive shingles that look the same, providing a uniform appearance across the roof. A Tesla Powerwall costs \$11,500 installed on its own. Tesla's Solar Roof must be integrated with at least one Powerwall and can connect to up to ten units.

How much do Apollo II solar shingles cost?

CertainTeed was founded in 1904 and is one of the leading manufacturers of asphalt shingles, siding, and insulation in North America. Apollo II solar shingles cost \$6.40 to \$8.20 per watt and must be installed on top of an asphalt shingle roof. Apollo II shingles are larger than standard shingles but smaller than solar panels.
