

# Rooftop rental solar power tax rate

Is rooftop solar PV a good investment?

According to the UKWA: Rooftop solar PV is a good investment opportunity in its own right, providing an internal rate of return of 10-15% on self-financed projects. Also: By 2030, non-domestic minimum expected energy standards (MEES) is planned to be EPC B, with EPC C rating required by 2027.

Is rooftop solar a big opportunity for commercial real estate?

2023-05-05: We're the world's largest commercial real estate owner: rooftop solar is a massive opportunity: Despite being one of the cheapest forms of energy, only 6% of European residential, commercial, and industrial buildings and only around 4% of those in the US are powered by rooftop solar.

Are all solar PV generating assets subject to business rates?

1. Are all solar PV subject to business rates? Non-domestic solar PV generating assets are rateable, however the Business Rates applied can vary considerably on the circumstances of its use: whether the site is set up as for 'mainly export' or 'mainly self-consumption'. The test applied is whether more than 50% of the power produced is exported.

Are solar panels paying rent for your roof?

Technically, they're not paying rent for your roof, because you'll get the benefit of powering your home using solar power instead of grid electricity. They'll make money from the electricity you don't use. All excess electricity generated is sold back to the grid via the Smart Export Guarantee (SEG) scheme.

What tax breaks are available for solar panels?

UK HMRC: Capital allowances for plant and machinery toolkit: 2021 to 2022 Self Assessment and Company Tax Returns . Tax Breaks for Solar Panels: The Government is offering 50% tax breaks on the capital cost of solar panels for businesses .

What is a solar panel rent-a-roof scheme?

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will set up solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid.

With a 3.5 kW solar system (that's 10 solar panels) on the Rent-a-Roof scheme, you will save £537 on electricity bills every year. After 25 years, you'll have made a profit of about £6,405, assuming the current price of ...
