

Rural household photovoltaic panel scam exposed

Are 'upselling scams' causing a surge in solar panel fraud?

However, homeowners making the most of the Government's solar panel drive have increasingly fallen victim to conmen. Citizens Advice has warned of a surge in solar panel fraud, particularly "upselling scams" in which cold-callers convince customers to upgrade technology they already have to meet fabricated legal "standards".

Are 'free solar panel health checks' a scam?

We're regularly contacted by customers, who have received an unsolicited call or letter from another company, offering them a 'free solar panel health check' or warning about their solar PV system being at risk of failing. This is a common scam.

Are free solar panels a scam?

Emails offering cheap solar panels or appearing to be backed by a Government scheme could also be scammers, taking you to an seemingly-official website offering free or cheap installation. These incredible deals rarely exist, so approach these with caution to avoid wasting your time. 3. Free solar panel online ads

Are solar panels a scam or a cold call?

Here are the cold calls and potential scams to avoid. More than a third of solar PV panel owners in our recent survey told us they have been cold called about their panels in the past five years. Most cold callers were trying to sell them something unnecessary, but a few owners were told something completely untrue.

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways 'fake' solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.
