

Rural solar power generation scam case

What is a solar energy scam?

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to increase energy efficiency. If you agree to the scammer's offer, it could cost you tens of thousands of dollars.

Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

Is misinformation turning rural landowners unfairly against renewables?

But misinformation spread by groups like Citizens for Responsible Solar is turning rural landowners unfairly against renewables, says Skyler Zunk, an Interior Department official under President Donald Trump and chief executive of Energy Right, a conservative-leaning nonprofit that supports solar projects that preserve ecosystems.

Why is Minnesota suing a solar loan company?

Minnesota is suing firms who finance solar power systems for homes. The case alleges that four lending companies deceived customers with hidden, upfront fees in exchange for lower interest rates. "It's misleading people about the price of the system and misleading people about the price of financing," says Assistant Attorney General Welle.

Why did the New Mexico AG Sue Vivint Solar?

Similarly, in March 2018, the New Mexico AG sued Vivint Solar for its claimed unfair and unconscionable business practices around the same 20-year leases. There, the AG accused Vivint of clouding titles to consumers' homes, fraud and racketeering in connection with its residential solar power purchase agreements and solar equipment.

Are customer complaints a problem in the solar industry?

Customer complaints against the country's residential rooftop solar industry have increased dramatically in recent years. One-star ratings on Solar Reviews increased more than 1,000% since 2018. Across the country, prosecutors are investigating high-pressure sales tactics and misleading financing arrangements.
