

Rural solar power generation scam news

Does a rural solar project need local or state approval?

President Biden takes notes during a meeting to discuss clean energy efforts with CEOs of U.S. electric utility companies at the White House in February 2022. Yet every single rural utility-scale wind and solar project needs local or state approval to get built, says Sarah Mills, who researches rural renewable energy at the University of Michigan.

Is misinformation turning rural landowners unfairly against renewables?

But misinformation spread by groups like Citizens for Responsible Solar is turning rural landowners unfairly against renewables, says Skyler Zunk, an Interior Department official under President Donald Trump and chief executive of Energy Right, a conservative-leaning nonprofit that supports solar projects that preserve ecosystems.

What is a solar energy scam?

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to increase energy efficiency. If you agree to the scammer's offer, it could cost you tens of thousands of dollars.

Are solar projects ruining the land they're built on?

The information on Ralston's website is "extremely misleading and appears designed to be misinformation," says Meyers of Virginia Tech. That includes claims that solar projects ruin the land they're built on. With the right practices, companies can improve local ecosystems, Meyers says, and farming can continue alongside power plants.

Should you choose a reputable solar energy company?

When temperatures rise, utility costs do, too. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver.

Does the federal government install solar systems in homes for free?

The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy. Take your time.

These scams start with an unexpected phone call, message on social, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they might try to sign you up for a "free" program to make your ...
