Who owns Danone's Russian unit?

Alisultanov personally owns the remaining 1% of Vamin R. President Vladimir Putin in March removed Danone's Russian unit from under the temporary management of the Federal Agency for State Property Management, where it had been since July 2023.

What type of power is used in Russia?

Electricity generation is based largely on gas (46%), coal (18%), hydro (18%), and nuclear (17%) power. 60% of thermal generation (gas and coal) is from combined heat and power plants. Russia operates 31 nuclear power reactors in 10 locations, with an installed capacity of 21 GW.

Which parts of Russia are completely isolated from the Unified Energy System?

Additionally, some parts of Russia are completely isolated from the unified energy system, including Kamchatka, Magadan Oblast, Sakhalin Oblast, Chukotka and Taimyr Autonomous Okrug, the western and central parts of the Sakha Republic, as well as many remote settlements across the country.

Could Russia's Rosneft oil & Gazprom Neft be the world's second-biggest crude?

The resulting company would easily be the world's second-biggest crude producer, after Saudi Arabia's Aramco, pumping almost three times the output of Exxon Mobil. An entity combining Russia's Rosneft Oil with Gazprom Neft and Lukoil could enable Russia to wring higher prices from customers in India and China.
