

Safaricom solar Nepal

Is Safaricom a purpose-LED technology company by 2025?

The 12 th Safaricom Business Report was launched in early October 2023 at the Michael Joseph Centre. The report focused on how Safaricom is ensuring sustainability within the company's value chain. It also showcases its goals to be transformative and to be a purpose-led technology company by 2025. The purpose-led journey includes:

Is Safaricom a sustainable company?

Safaricom has made good progress but a lot more can be done. What drives Safaricom is being purpose-led in its goal to achieve sustainability. More banks focus on affordable financing rather than sustainable financing. However, sustainable loans may be better for companies.

Does Safaricom have a sustainability loan?

The Loan will also help the company meet its commitments made in the sustainability report. Safaricom sees itself as a champion of social equity and a proponent of ethical practices. The sustainability report is a commitment to transforming lives and driving positive change.

What makes Safaricom a good company?

Safaricom also upgraded to a robust revenue assurance process. All products, innovations and systems developments guarantee safety and data privacy. Safaricom operates in a highly regulated landscape. In 2022, the company attained a 95% quality of service assessment. This surpassed the regulatory measure of 80%.

Is Safaricom a regulated company?

Safaricom operates in a highly regulated landscape. In 2022, the company attained a 95% quality of service assessment. This surpassed the regulatory measure of 80%. As a result, this shows the quality of service and reflects the commitment to delivering top-notch services to bridge the digital connectivity gap.

Is Safaricom a catalyst for change in Kenya and Ethiopia?

Safaricom hopes to be a catalyst for change in Kenya and Ethiopia, where it has set up a branch of its operations. The chief guest of the launch was the executive director of Alliance for Science, Dr Sheila Ochugboju. Dr Ochugboju was in 2021 recognised as Africa's 100 most influential women.

The Nepal Electricity Authority has recently concluded its latest auction round, awarding contracts for 960 MW of grid-connected solar power projects to various developers. The tender was floated for 800 MW capacity. Among the largest winners, the GEPPERT-RAPTI Consortium secured ten projects for a total capacity of 125 MW, each awarded at a tariff of ...
