

Saint Helena arenko group

What is arenko group?

An off the shelf solution to simplify trading of energy storage assets. Whether you're an asset owner or an electricity market participant, we would love to demonstrate our capabilities to you and your team. I consent to my data being processed and stored by Arenko Group in compliance with the Privacy Policy.

What is GE doing with arenko?

Image: wikimedia commons User: Momoneymoproblemz. GE has formed a strategic alliance with UK energy infrastructure company Arenko to develop grid scale batteries in the UK, starting with a 41MW system in the Midlands.

What skills does arenko have?

Our experience includes data science, software engineering, trading, finance, commercial leadership, industrial engineering, operational management, high voltage infrastructure and cutting-edge energy integration systems. We are motivated at Arenko to use these skills to accelerate the development of sustainable energy systems.

Is arenko investing in GE's Bloxwich system?

Arenko has invested in the system supplied by US engineering and manufacturing giant GE (General Electric) for what is thought to be its Bloxwich project, which is poised to compete for a contract in the UK's upcoming T-4 Capacity Market auction.

Chrysoula joined Arenko in 2018 as a Project Manager to manage the construction one of the first battery energy storage systems entered in the balancing mechanism in the UK. She now leads the Project Services team as the Director of Projects, delivering battery energy storage projects from development throughout to construction, commissioning and asset management [...]

Arenko began optimising a 22MW/16MWh short-duration BESS at Vattenfall's 228MW Pen y Cymoedd (PYC) Wind Farm in Wales from mid-2022, marking the UK's first example of that co-location. In the more recent example, in Northumberland in northern England, a 20MW/45.5MWh battery storage system is paired with Vattenfall's 54.4MW Ray Wind Farm .

We are motivated at Arenko to use these skills to accelerate the development of sustainable energy systems. ...
