

This profile provides a snapshot of the energy landscape of the northeast Caribbean island Saint Martin. The island is divided between two nations, France in the north (Saint-Martin) and the Netherlands in the south (Sint Maarten).

National Energy Transformation in Sint Maarten GridMarket was chosen as Sint Maarten's exclusive renewable energy partner to help the island reach 85% renewable penetration and 100% heavy fuel oil free by 2030. Sint Maarten will work with GridMarket to identify, design, procure, and install distributed energy assets and

Electricity to Saint Martin is provided by a fuel power plant. Renewable energy is not used on the island, except for very few solar panels. Our project of Waste-to-Energy (PI project) will produce about 8% of the total energy consumption.
