

# Saint Martin cm solar panels scheme

Why have solar panels been installed in St Martin's Parish Hall?

St Martin's Parish Hall and its adjoining outside toilet block have had solar panels installed as part of a push to move away from using electricity from the grid, officials said. The installation formed part of ongoing refurbishment projects across the parish and was the first of its kind on the island, they added.

Will St Martin be the first parish to commit to solar power?

In a joint statement, they said: "We felt it was our responsibility to reduce our carbon footprint and this is a great day for St Martin to be the first parish to commit to solar power and to do our little bit for the environment." It comes as works are ongoing to refurbish the hall, meeting room, library and offices.

Why did St Martin get a new tax meter?

The installation formed part of ongoing refurbishment projects across the parish and was the first of its kind on the island, they added. St Martin constables said the change would also work towards "reducing rates" for taxpayers.

What does gridmarket do for Sint Maarten?

GridMarket was chosen as Sint Maarten's exclusive renewable energy partner to help the island reach 85% renewable penetration and 100% heavy fuel oil free by 2030. Sint Maarten will work with GridMarket to identify, design, procure, and install distributed energy assets and make corresponding infrastructure upgrades.

Rapidly scaling up solar PV installations will lower electricity expenses for consumers and increase the reliability of the island's power supply while contributing to St. ...
