

Samoa enericap battery

What is enericap energy storage?

Our groundbreaking energy storage solutions mark the dawn of a new era in energy storage. Unlike chemical batteries, Enercap's storage technology does not degrade, has a longer life, operates in a wider ambient temperature range, and operates at 100% depth of discharge, coupled with an impressive efficiency rate of 99.1%.

What products does enericap offer?

Enercap's current portfolio includes advanced energy storage, next-generation power control systems, ultra-fast EV charging stations and long-range, fast charging, EV storage systems.

Why should you choose enericap?

At Enercap, we believe that innovation holds the gateway to a future that is both clean and efficient. Our groundbreaking energy storage solutions mark the dawn of a new era in energy storage.

What is enericap batterix?

Enercap's Batterix solution delivers the longest range, shortest charge time, widest operating temperature range, longest life and lowest environmental footprint in the industry and is going to set the benchmark for EV storage. Waseem Ashraf Qureshi is the inventor, CEO and CTO of Enercap Holdings.

Who is enericap power industries?

Enercap Power Industries LLC, incorporated in Dubai, UAE, is a wholly owned subsidiary which is the licensee distributing encapsulated capacitor-based stationery energy storage including Enpack (utility scale), Encap (backup and telecom), Enwall (residential) and Ensega (RV, boating, consumer).

What is enericap ensirius storage?

Enercap's Ensirius storage, with its multiple cycling capability, degradation free attribute and long cycle life, is the telecom industry's go to storage solution delivering the best performance at the lowest cost in the industry for BTS, data centre and fixed line network applications.

Enercap is proud to announce that this November it will be demonstrating Batterix in collaboration with a major car brand, where it plans to charge a vehicle in 5 minutes and drive it several hundred miles. This will exhibit not only the fastest charge in an EV battery the world has ever seen, but also the longest range.

The Enercap battery system has not only saved us money but has also contributed to a more eco-friendly lifestyle. Henry. The Enercap system has been seamlessly operational since its implementation. Enercap is a leading provider of energy storage systems, offering accessible solutions that optimize energy independence.

BATTERY PERFORMANCE SPECIFICATIONS DC Energy 10kWh Voltage Range 43.2Vdc to 60.8Vdc
