

# Sample installation of solar panels

How do you install a solar system?

Once the solar panels are installed, the system needs to be activated. This involves interconnecting the solar panels, installing the inverter, and commissioning the system. During this step, installers should note that as long as the solar panels are receiving sunlight, they have an open circuit voltage.

How to install solar panels?

The basic system is to start with the installation of a rack or platform. If the panels are roof-mounted, a roof racking system is first installed. A ground platform is needed if the panels are ground-mounted, and installing the solar panels is not difficult. What is more difficult is wiring them.

How do I prepare for a solar panel installation?

Installing solar panels helps homeowners save money and invest in cleaner energy. To prepare for an installation, determine your energy needs and home compatibility with a solar panel system. The installation requires complicated electrical work and paperwork that any reliable solar installer can handle.

How does a solar installer install a roof?

Any open holes in your roof shingles will be sealed to prevent leaking. The installer will then install the solar panels to the racking and connect the electrical wiring. They'll also install any additional equipment, such as an inverter or battery bank. Many solar installers can complete installation in just one day.

What does a solar installer do?

An engineer assesses your property, ensuring compatibility with the solar PV system. Complete necessary paperwork, including permits, incentives applications, and financing documents. Select solar panels and inverters. Your installer will order the equipment and schedule the installation.

What is a do-it-yourself solar installation kit?

Several solar panel manufacturers offer do-it-yourself (DIY) installation kits for solar projects. These kits include solar panels, inverters, wiring, and other needed equipment. There are also solar panel kits for smaller installations, such as on a recreational vehicle (RV), small garage, or shed.
