

# Santacc energy co ltd Luxembourg

The electric dehydrator relies on the electric field force to demulsify and dehydrate the water-in-oil emulsion. It has high efficiency and fast speed, and is widely used in various oil fields. At present, the electric dehydrator uses a sinusoidal AC power supply with a power frequency of 5...

Water Electrolysis. Taking water as raw material, utilizing surplus, cheap and unstorable valley electricity or electricity generated from renewable energy sources such as photovoltaic, wind power, hydropower, etc.; catalytic electrolysis of water is carried out, and water molecules undergo electrochemical reactions on the electrodes, generating hydrogen at the cathode and ...

TEL: 0086-511-88229828 EMAIL: info@santacc Online VR. English . ... We have been continuously improving and focusing on technological innovation to become an international brand company. CNC drilling and milling machine: 8000\*4000\*800mm, ...

In the morning of July 15th, 74 sets of ethylene heat exchanger for 1.5 million tons/year of Shandong Yulong Petrochemical project, contracted by Santacc Energy Co., Ltd., was officially started. Firecrackers were lit and fireworks were blooming. ...

SANTACC is the first company in China specialized in the research and development of high voltage electrostatic separation, and has devoted itself to the research crude desalting technology on refinery and oil-water separation technology.

Santacc was awarded the title of 2022 product high-quality Development. About Company SANTACC is the first company in China specialized in the research and development of high voltage electrostatic separation, and has devoted itself to ...

Through decades of unremitting efforts of all the staff, Santacc Energy Co., Ltd (hereinafter referred to as Santacc) has developed into a group company, with business involving oil and gas field ground engineering equipment, petrochemical equipment, chemical equipment and ...
