Why should you choose Schutz?

Innovative technology and extensive service ensure practical and economical solutions for customers. To ensure consistent quality, all the essential components are produced in-house by Schutz. This guarantees and maintains the high quality of not only the oil and water storage tanks but also of the latest underfloor heating technology.

There are many reasons for this: not only are living comfort and health important decision criteria, but energy, cost-effectiveness and sustainability are also key advantages of underfloor heating. Schutz underfloor heating systems are complete solutions with flexible, integrated components, developed and perfectly tailored to your needs.
