The Microlyte MP is a range of valve regulated AGM batteries and is available in a wide range of industry standard sizes. This mainstream range still features SEC reliability, but is suitable for all general standby applications at the more cost sensitive end of the market.

The SEC Group was founded in 1977 and is a leader in the energy storage industry with corporate facilities across the world. But as SEC Battery reflects on modern times, and the evolution of technology, we can't help looking back to where it began. With real people, solving real energy problems.
