

Sec industrial battery Mozambique

What types of batteries does SEC manufacture?

SEC manufactures reliable AGM batteries that will exceed all your desired performance standards. As expert battery manufacturers, SEC offers cutting-edge, deep-cycle, VRLA, AGM and Gel battery technology. We also have Lithium, Lead Acid and Ni-Cad batteries to meet the large-scale, specialist needs of industrial power users.

Who is SEC Battery Company?

SEC Battery Company is supercharging energy storage! What do you need the solution for? SEC partners are not restricted to one chemistry or application. We supply everything you need from Lead-Acid and Lithium-Ion industrial batteries, to the latest solar modules.

Who is SEC energy storage?

SEC Energy Storage has been built with hundreds of years of combined experience in the energy industry. Today this foundation means we're ahead of the game as the industrial battery market matures. All of SEC's energy storage solutions are designed and developed in-house, using SEC's legacy technical blueprints.

Why did SEC become a global agent for GNB batteries?

In another recognition of market expertise, SEC were appointed as the worldwide agent for GNB Batteries. The SEC Hong Kong office opened to run logistics and shipping from China. SEC needed to service a growing world-wide demand. The ascension continued as SEC won several major contracts in the marine navigation sector.

Is SEC a good battery company?

In 2016, the SEC group reported a staggering seven-times, year on year growth achievement and became the first battery company in the world to achieve the ISO9001: 2015 mark of quality. Quality standards demand that every SEC product is designed from scratch, integrating cutting edge technology with the best raw materials.

Why did SEC reopen a battery factory?

The SEC factory remained open long after many other factory closures prevented battery production. Despite the crisis in China, SEC European sales soared to record levels. The company began to navigate extremely tough trading conditions caused by the industrial crisis.
