

Senegal greener power solutions

What is Senegal's energy policy?

The IEA's Energy Policy Review of Senegal 2023, published today, finds that energy is at the heart of Senegal's 2035 strategy for accelerating sustainable development and economic growth known as the Plan National de Croissance (PNC), or the Emerging Senegal Plan.

Is Senegal a good country for energy transitions?

Senegal is a strong advocate for just energy transitions. The country has already met the wind and solar targets it established for 2025 under its most recent Nationally Determined Contribution to the Paris Agreement, and it has joined the Global Methane Pledge to reduce the world's methane emissions 30% from 2020 levels by 2030.

When will West African energy open a gas power station in Senegal?

West African Energy, a Senegalese energy company, plans to open Senegal's first and largest 300 MW combined cycle gas power station in January 2024.

Will Senegal become an oil and gas producer in 2024?

This partnership could mobilise up to EUR 2.5 billion to support Senegal's efforts to achieve universal energy access and strengthen a resilient, secure and sustainable energy system that fosters sustainable development and economic growth. In 2024, Senegal is expected to become an oil and gas producer.

Why is energy poverty a problem in Senegal?

This has led to high levels of energy poverty, with many Senegalese people unable to access reliable and affordable electricity. As a signatory to the Paris Agreement, Senegal has committed to reducing its greenhouse gas emissions and transitioning towards a sustainable, low-carbon economy.

Could solar power be used in Senegal?

Senegal has abundant solar and wind resources, which could be used to generate decentralized clean and affordable electricity that meets the needs of its people.

GGGI operations in Senegal started in 2016 during the phase 1 of the Emerging Senegal Plan (PSE) line with the second phase of Senegal's Emerging Senegal Plan (PSE), GGGI supports the Government of Senegal (GoS) in its ...
