

What is Duyunov's Motors?

"Duyunov's motors" is a project aimed at commercialization of the unique "Slavyanka" combined winding technology. The technology allows the team of engineer Dmitriy A. Duyunov to design new generation electric motors used in electric transport, industry, agriculture, military sector, aviation, household appliances, medicine and other fields.

Who invests in Duyunov's Motors?

Investments in the project "Duyunov's motors" are attracted by crowdinvesting, which is otherwise also known as collective funding. This means that funds for the project implementation come from small and medium-scale investors. Today any person from any country can become the project investor and get a share in the innovative business.

Who is Dmitriy Alexandrovich Duyunov?

Here the team of engineer Dmitriy Alexandrovich Duyunov will develop electric motors using the "Slavyanka" technology of any complexity, for various applications, according to the customer needs. In 2019, the Moscow government supported the innovative project, recognizing its significance and relevance.

What are the advantages of electric motors with Slavyanka technology?

The main advantages of electric motors with the "Slavyanka" technology The main goal of the project "Duyunov's motors" is to make profit from the development of electric motors with the combined winding "Slavyanka" for different customers and applications.

Did Duyunov test electric locomotive era?

testing electric locomotive "Era". the electric motor using Duyunov's technology, "Era" handles 11 cars instead of 5. a trolley bus with a modified motor was tested. Luts'k and Kiev: successful application of the technology to the electric bus motor.

Duyunov Motors is a project to commercialize the unique technology of combined windings "Slavyanka". The technology allows the team of engineer Dmitry Alexandrovich Duyunov to design new generation electric motors used in electric transport, industry, agriculture, military industry, aviation, household appliances, medicine and other fields.

Results of the week in the project "Duyunov's motors" 12 March 2023 Work was in full swing at the "Sovelmash" construction site throughout the week. ... o The casting area was being prepared to accommodate the equipment. o A bridge crane was delivered to the motor assembly shop. o Trays for electric cables were installed on the third ...

1. Record a video on the subject "Review of the "Duyunov's motors" project" with your face in the footage. 2. Upload the video to for public access. Specify the following in the subject: Review of the project "Duyunov's motors": Why I invest with SOLARGROUP. Add the #solargroup_feedback hashtag in the description. 3.
