

## Serbia 3kva battery

How many MW of battery storage will be developed in Serbia?

Up to 200 MW of battery storage will be developed across the sites. Image: Ministry of Mining and Energy, Tanjug Plans for 1 GW of new solar in Serbia are set to go ahead after the signing of an implementation agreement.

How many GWh will Serbia produce a year?

The Serbian government approved the proposed sites in September. The largest in the deal is a 460 MW facility in the territory of Negotin and Zaječar, followed by a 302 MW plant in Bošnjace. All six plants will be connected to a single transmission network and are expected to produce a combined 1,600 GWh annually.

Is solar a good option for Serbia?

A statement published on the Serbian government's website says solar is the most optimal solution to quickly reach large capacities from green sources, without burdening and endangering the stability of the transmission network. Serbia currently gets more than 60% of its electricity from fossil fuels.

How much lithium can Serbia produce a year?

Rio Tinto has said Serbia's lithium reserves in Loznica could produce an estimated 58,000 tonnes annually, enough for 1.1 million electric vehicles. During an interview with Germany's Handelsblatt ahead of the Belgrade summit, Vucic said conversations were ongoing with a range of European automakers including Mercedes, Volkswagen and Stellantis.

Will Serbia's lithium reserves be a priority after parliamentary elections?

Vucic, whose party won parliamentary elections in December, has said environmental protection would be a priority after extracting new assurances from the company. Rio Tinto has said Serbia's lithium reserves in Loznica could produce an estimated 58,000 tonnes annually, enough for 1.1 million electric vehicles.
