

Which roof tile has a solar panel?

The SOLAR FLAT-5XL ceramic tile, which has a solar panel on the large ceramic base of the roof tile, preserves the dimensions of the original ceramic tile and is still completely flat. The choice of materials for a roof is crucial to guarantee its durability, watertightness, energy efficiency and to protect the home.

What are the benefits of a solar roof made from ceramic tiles?

Thanks to the integration of the solar panel into the tile, the tiles provide all the benefits of a roof made from ceramic tiles in terms of watertightness, without any risk of deterioration or oxidation. The perfect integration is completed with the installation of the roof or facade using FLAT-5XL tiles and other ceramic accessories.

How to install solar tiles on a ventilated roof?

SOLAR tiles, both the Flat-5XL and Flat-10 formats, must always be installed on ventilated roofs, using a double batten or equivalent system. The integration of the tiles into the roof is achieved by finishing the roof with ceramic tiles and their corresponding special pieces.

Why should you choose a solar roof tile?

Thanks to its integration, it confers all the benefits of capturing renewable photovoltaic solar energy as well as presenting excellent reliability in terms of watertightness throughout the roof. The SOLAR FLAT-10 roof tile is a photovoltaic tile manufactured using the latest photovoltaic cell technology.

How much weight is a solar roof tile?

9.30 Kg. 2,22 - 2,02 uts. The SOLAR FLAT-10 roof tile is designed to blend seamlessly into your roof. Thanks to its integration, it confers all the benefits of capturing renewable photovoltaic solar energy as well as presenting excellent reliability in terms of watertightness throughout the roof.

Which ceramic tiles fit a flat roof?

These products integrate perfectly into the flat ceramic tiles in the "Flat" range so that they have minimal impact on the original design of the project. The SOLAR FLAT-5XL ceramic tile, which has a solar panel on the large ceramic base of the roof tile, preserves the dimensions of the original ceramic tile and is still completely flat.
