

What does the Seychelles government do?

The Seychelles Government is committed to providing adequate, reliable and affordable energy to meet future energy consumption needs and to underpin strong economic growth through consumable energy initiatives. The Seychelles enjoy favourable conditions for renewable energy (RE) resources, such as wind and solar.

What is the Seychelles energy plan?

It targets an ambitious transformation and diversification of the Seychelles' currently 85 MW diesel-dominated electricity generation capacity (on Mahé, Praslin and La Digue), aiming at replacing diesel generators with domestic and international public and private financing.

What is the World Bank Group strategy in Seychelles?

The World Bank Group (WBG) strategy in Seychelles, outlined in the Country Partnership Framework (CPF) FY25-FY30, aims to support the country's transition to a more inclusive, resilient, and sustainable development path. The CPF addresses key challenges related to productivity, participation, and public sector performance.

How much money does the World Bank have in Seychelles?

Key strategies include enhancing skills development, supporting the digital economy, and promoting renewable energy adoption. The World Bank portfolio in Seychelles stands at \$60 million (including national projects and budget support) as of August 2024.

Is Seychelles a sustainable country?

Its economy is highly dependent on tourism and fisheries, and climate change poses long-term sustainability risks. Independent since 1976, Seychelles is a relatively young democracy. The first multiparty presidential election was held in 1993 after adopting a new constitution.

How many people live in Seychelles?

The country has a total population of 121,355 people, three-quarters of whom live on the main island of Mahé. Seychelles has Africa's highest gross domestic product (GDP) per capita, at \$16.7 billion (2023). Its economy is highly dependent on tourism and fisheries, and climate change poses long-term sustainability risks.
