

Singapore caterpillar solar

Does caterpillar sell parts in Singapore?

Caterpillar has been supporting customers in Singapore since the 1920s. In 1967, our first facility opened in the country to coordinate parts distribution for Cat's dealers across Asia Pacific. Today, our Singapore workforce represents nearly every part of Caterpillar's business including marketing and sales, parts distribution and manufacturing.

When did Caterpillar start in Singapore?

Active in Singapore since 1920s, Caterpillar first set up operations in the country in 1967 with the opening of its Asia Distribution Centre, which coordinates parts distribution for Cat's dealers across Asia Pacific. In 1994, Singapore became Caterpillar's headquarters for Asia Pacific.

How many employees does caterpillar have in Singapore?

Today, Caterpillar has a workforce of over 800 in Singapore, representing nearly every part of Caterpillar's business. Together with its dealers and suppliers, there are more than 1,100 people dedicated to Caterpillar's business in Singapore. "We are delighted to have Singapore as our regional headquarters as we celebrate this milestone.

Why does caterpillar invest in Singapore?

Singapore is proud to play a pivotal role in Caterpillar's growth strategy to capture opportunities in the region," said Tan Kong Hwee, Director of Transport Engineering, Singapore Economic Development Board. In 1998, Caterpillar Financial Services was set up to provide financial solutions to customers in Singapore.

Can Singapore get solar energy?

Presently, Singapore relies upon imported fossil fuels. In the future, Singapore could procure large amounts of solar energy from nearby nations, including Indonesia, Malaysia, Thailand and Australia. This solar energy could be transmitted to Singapore through undersea HVDC cables. Wind energy could also be imported from Vietnam.

Is Caterpillar a real company?

SINGAPORE - Today, Caterpillar Inc. (NYSE: CAT) celebrated its 50th anniversary in Singapore. Caterpillar is the world's leader in construction and mining equipment, diesel and natural gas engines, industrial gas turbines and diesel-electric locomotives.
