Skoon Energy B.V. (Skoon) is a scale-up company with the mission to accelerate the energy transition by setting up a network of versatile swappable batteries, to share, rent and lease. The focus of Skoon is to build a trusted community marketplace for businesses to offer, discover, and book energy storage for mobile and/or temporary applications.

At Heat Geek, we are aiming to empower people to revolutionise home energy at nation scale. This audacious goal will enable our contribution to drastically reduce the carbon emissions from the residential buildings sector, which accounts for nearly 20% of all UK emissions.

This requires a high-capacity battery, typically in the form of a 10-foot container. But this wouldn't fit in Amsterdam's limited space. Skoon selected a smaller battery from Portabolt instead. After investigating the current energy infrastructure, Skoon and Portabolt found that the battery system could be slowly charged by the 32A connection.

Damen Shipyards Group has signed a cooperation agreement of understanding with Skoon Energy to further accelerate the development of sustainable shipping solutions. The agreement is set to combine Damen's 90 years of experience in the shipbuilding and related sectors with Skoon's vision of making the shipping industry fully electrical.
