STS partners with carefully qualified ISO17025-accredited PV testing laboratories to provide a complete one-stop-shop experience. We assist our clients in establishing the most pertinent testing plan, identifying the relevant testing location to perform the test and follow-up the testing execution to finally interpret results and data.

Wallis & Futuna, located in the South Pacific, comprises two main inhabited islands and a number of smaller islets, with a population of about 11,000 individuals. The population is dispersed unevenly, with most residents living on the Wallis Island. The geographical isolation and scattered population pose challenges for technological and telecommunication infrastructure.
