

Does Dubai have a smart grid strategy?

It supports the Dubai Clean Energy Strategy 2050 and the Dubai Net Zero Emissions Strategy 2050 to provide 100% of the energy production capacity from clean energy sources by 2050. In 2014, DEWA developed its first Smart Grid strategy up to 2035, which is a key component of a smart city.

What is Dubai's smart grid programme?

DEWA's Smart Grid Programme, with investments totaling AED 7 billion, supports the directives and the vision of HH Sheikh Mohammed bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, to make Dubai the smartest and happiest city in the world.

Does DEWA have a smart grid strategy?

In 2014, DEWA developed its first Smart Grid strategy up to 2035, which is a key component of a smart city. DEWA successfully completed the short-term goals of the Smart Grid Strategy 2014-2035.

How many smart meters does DEWA have in Dubai?

As of December 2021, DEWA deployed approximately 1,058,895 smart electricity meters and 960,364 smart water meters across Dubai. With 100% of DEWA's customers utilising smart meters, this enables smart grids for DEWA's electricity and water networks.

What is smart grid artificial intelligence?

It leverages smart grid artificial intelligence to identify the needs of each individual customer and create tailor-made offerings for them that extend far beyond the traditional utility portfolio. This allows DEWA to create new revenue streams and increase customer happiness.

Saeed Mohammed Al Tayer, MD and CEO of Dubai Electricity and Water Authority (DEWA), announced that DEWA has achieved 100% installation of smart water metres in Dubai, meeting the growing demand for water services. By the start of June 2024, DEWA had installed over one million smart metres that comply with the highest international technical ...

A smart grid is an intelligent automated system for monitoring the flow of electricity and making the distribution of electricity more efficient. In a world where protecting the environment is a major concern, it is important to find cost-effective ways of reducing power usage and increasing energy independence. This Smart Grid for Non ...

Dubai enhances smart grid with first Virtual Power Plant in region DEWA sets up digital system to connect many separate units, maximise value Published: July 29, 2022 20:55 Gulf News Report

Globally, governments realize the importance of updating electric energy grids and establishing smart grid

systems. The smart ... and SEWA-- -- the Sharjah Electricity and Water Authority. Abu Dhabi's " ADWEA and Dubai's " DEWA generate and consume most of the UAE's " electricity, accounting for more than 80% of the country's ...

Huawei's technology is revolutionising the energy sector in the Middle East, particularly in the UAE and Saudi Arabia--two nations committed to achieving ambitious clean energy goals. At GITEX Global in Dubai, Andy Ding, Solution Vice President of Huawei Electric Power Digitalisation Business Unit, and Dr Moustafa Abdelhady M Shahin, Smart grid expert, ...

Smart Grid Strategy The Smart Grid that DEWA is implementing, with total investments of AED 7 billion, is an integral part of DEWA's strategy to develop state-of-the-art infrastructure for managing facilities and services according to smart and integrated systems using disruptive technologies and Fourth Industrial Revolution applications.

In 2021, DEWA launched its updated Smart Grid Strategy up to 2035, transitioning the smart grid programmes into 6 themes. This helps expand smart enablers and provides more flexibility and agility to keep up with new ...

Dubai Electricity and Water Authority (DEWA) has launched its Smart Grid Report 2022. The report highlights the latest information regarding DEWA's smart grid and its role in sustaining DEWA's position as one of the ...

Curious about the smart grid in UAE and its impact on energy? The UAE is revolutionizing its energy management with advanced smart grid technologies. This move aims to boost energy efficiency and support ...

The inauguration of Alstom Smart Grid Centre in Dubai is a cornerstone of the groups commitment to the development of the Smart Grid in the United Arab Emirates and Middle East region, said Grégoire Poux-Guillaume, President of Alstom Grid. As Smart Grid technologies are integrated to existing infrastructure, customers in the region will ...

Emirate of Dubai Towards Smart Grid Sultan Al Obaidli, Venkataraman Subramaniam, Hamood Alhuseini, and Ramesh Gupta Dubai Electricity & Water Authority David Dolezilek, Amandeep Kalra, and Prasanth Sankar Schweitzer Engineering Laboratories, Inc. Presented at Saudi Arabia Smart Grid 2017 Jeddah, Saudi Arabia December 12-14, 2017

The United Arab Emirates Smart Grid Market is projected to register a CAGR of greater than 2.5% during the forecast period (2024-2029) Reports. ... The innovative grid program also envisages Dubai Clean Energy Strategy 2050 and the Dubai Net Zero Emissions Strategy 2050 to give 100 percent of the energy production capacity from renewable energy ...

Smart Grid Strategy. The Smart Grid that DEWA is implementing, with total investments of AED 7 billion, is

an integral part of DEWA's strategy to develop state-of-the-art infrastructure for managing facilities and services according to smart and integrated systems using disruptive technologies and Fourth Industrial Revolution applications.

The integration of sensors and monitoring devices across the grid infrastructure is central to smart grid systems. These sensors continuously collect data on various parameters such as temperature, humidity, wind speed and power flow. This real-time information enables the smart grid to anticipate and respond swiftly to weather-related challenges.

In an effort to move towards smart grid, the Dubai Electricity & Water Authority (DEWA) initiated a long-term contract for the supply, installation, testing, and commissioning of 33 substations (132/11 kV) with modern automation systems for transmission power substations. DEWA has very strict requirements in terms of system availability ...

490 million imperial gallons per day, providing its services to over one million customers across Dubai. DEWA's Smart Grid strategy was developed in 2014, in alignment with the Dubai Plan 2021. In 2021, DEWA launched its updated Smart Grid Strategy up to 2035, evolving from a technology-led approach
