

# Soft pallet hanging photovoltaic panels

Are solar panel pallets reusable?

Adjustable, collapsible, reusable pallets engineered for solar panels. PVpallet's solar panel pallets, Series X and Series X.L, fit a range of panel sizes. These pallets are purpose-built with added features like protective sidewalls, a steel-reinforced base, and an efficient load management system.

What sizes does pvpallet offer?

Watch the Full Product Demo. PVpallet's solar panel pallet is available in two sizes. Series X is designed for solar modules between 63.5" and 83.5" in length. Series XL is designed for larger 90" modules. Custom sizing is available upon request.

Does pvpallet test reusable solar panels?

PVpallet does not warrant that all loads will perform the same as lab testing. PVpallet's reusable solar panel pallets can be adjusted to fit a range of panel sizes and are purpose-built with added features like protective sidewalls, a steel-reinforced base, and an efficient load management system.

What size is a solar panel pallet?

PVpallet's solar panel pallet is available in two sizes. Series X is designed for solar modules between 63.5" and 83.5" in length. Series XL is designed for larger 90" modules. Custom sizing is available upon request. Max. Interior Dimensions (L x W x H): 83.5" x 44.8" x 42.2" \* 90" x 44.8" x 42.2" \*, walls must be set to max width only.

Does pvpallet perform load capacity testing?

\*\*As all products can have unique loading patterns and shifting characteristics, PVpallet recommends that customers perform their own load capacity testing. PVpallet's standard is to target and test to the maximum weight limits as shown in the specifications. PVpallet does not warrant that all loads will perform the same as lab testing.

How do you carry solar panels to a garage?

If you choose to carry panels in your hands to your garage, try not to apply too much pressure in one spot of a panel. It's best to distribute its weight across your shoulder, arm and back. The installation of solar panels is usually handled by professionals. Normally, they would use a mechanical lift to get your panels up on the roof.
