

Solar 150W Generator

Does iGen160s work with solar panels?

It's engineered without an engine for clean power without the hassle of fumes, fuel, or noise to make it an ultra-versatile silent power source that is maintenance-free. With solar panel capability, the iGen160s will work in unison with any solar panel that has a DC13V-25V/2A Max port.

Can a generator be solar charged?

The generator can be solar charged by connecting with a solar panel, but also comes with several other recharging options to make it easier for you. It can charge for five hours in a wall outlet or can be plugged into your car's charging port with the included car charger.

Does the iGen160s have an engine?

The iGen160s is engineered without an engine which means it uses no fuel, needs no maintenance, and generates no noise for a hassle-free experience. Without fumes or special care, this is the ultra-versatile silent power source to take anywhere.
