

Solar panels generate direct current or DC power. The inverter changes DC power to AC power for use in homes or businesses, whether on-grid or off-grid. SunWatts is a trusted supplier of the world's best solar inverters. Use the links below to learn about solar inverters, shop for inverters and compare solar inverter brands.

For off-grid solar systems, off-grid inverters don't have to match phase with the utility sine wave as opposed to grid-tie inverters. Electrical current flows from the solar panels through the solar ...
