

Solar charging lamp with stand

How to charge a solar light?

To charge a solar light, switch it off and let it charge for a couple of days or up to 72 hours. The light will charge even if it's turned off. It is recommended to follow this technique regularly even if your solar lights are working fine.

What is a solar work light?

The solar work light absorbs sunlight with efficient conversion rate, emits super bright cool white light to light up a nice size area indoors or outdoors. You would find it a great portable light for camping, car repairing, fishing, construction site, garage, workshop, power outages, painting projects, etc.

What is little sun charge?

From its beginnings as a successful Kickstarter project in 2015, Little Sun Charge is charging phones and changing the lives of people across the planet, like community health workers in Tanzania. Like the Little Sun Original, our product was designed by the Little Sun founders, artist Olafur Eliasson and engineer Frederik Ottesen. **BUY ME NOW**

Why should you choose solar work light?
