Why choose generation renewable - Guam?

I am extremely pleased with my solar system from Generation Renewable - Guam. I was paying more than \$400.00 for power to GPA before getting a solar system from Generation Renewable - Guam... I was never really able to save money on power until I got a solar energy system from Generation Renewable - Guam...

Does Guam have plans for a solar farm?

Guam has announced plans for several large solar farms. The island has adopted a renewables policy that requires the reduction of fossil fuel consumption by 2020 to 20% less than the rate in 2010. Another requirement is for 5% of electricity in 2015 to be from renewables, increasing to 25% by 2035. A net metering program began in 2009.

Does Guam have solar energy systems?

Until 2015, only a few off-grid photovoltaic systems (PV) and some distributed generation PV and small wind turbines were in use on Guam. Plans for several large solar farms have been announced. Guam has adopted a renewables policy that requires the reduction of fossil fuel consumption by 2020 to 20% less than the rate in 2010.

How is energy consumed in Guam?

In Guam, the consumption of energy is heavily influenced by its remote location. Almost all energy is reliant on imports of petroleum products for use in transport and electricity. Guam does not have any domestic production of conventional fuels such as oil, natural gas, or coal.

Will my home solar system work during a power outage?

If your home solar system is tied to your utility (grid-tied) and you don't have a battery, your home solar system will not work during a power outage. You will not be able to produce or consume solar energy while the grid is down. In order to have power during a power outage, you will need a home solar + battery storage system. \*

What kind of inverter does GoSolar use?

GoSolar uses high efficiency low cost \$/watt micro-inverters by NEP(TM). Founded in 2010 in Silicon Valley California, NEP(TM) engineers and produces competitively priced high-quality micro inverters. In fact, the NEP(TM) micro inverter is the only certified and commercially available micro inverter in Japan.

GoSolar Guam is committed to providing green energy solutions to the people of Guam and Micronesia. We design and build high-efficiency solar panel systems that will lower your carbon foot print, increase the value of your home or business, and save you money.

"A goal of Guam's economic development strategy is to replace some of its imported petroleum with
