

Will Ivory Coast get a 52 MW solar plant?

The Ivory Coast government has signed an agreement with infrastructure investor PFO Africa for the financing, construction and operation of a 52 MW solar plant. The project has been billed as the country's largest to date.

Will IPPs build solar power plants in Ivory Coast?

The selected IPPs will build solar power plants capable of delivering 60 MWp to the national grid in Ivory Coast. The solar plants are being built under the "Scaling Solar" program, an IFC initiative to leverage public-private partnerships (PPPs) for the rapid construction of solar power plants in developing countries, particularly in Africa.

When will Ivory Coast's solar power plants be built?

The minister said that contracts are currently under review for the construction of other solar power plants, with a cumulative capacity of 600 MW. Commissioning of these projects will take place in 2025 and 2026. Coulibaly said the Ivory Coast's installed solar capacity currently stands at 2,907 MW.

Which companies are developing solar power plants in Ivory Coast?

The Egyptian company Elsewedy Electric is also among the potential developers of the Laboa and Touba solar plants. The same goes for Infinity Power Holding and Nareva Holding, the subsidiary of the Moroccan group Al Mada. The selected IPPs will build solar power plants capable of delivering 60 MWp to the national grid in Ivory Coast.

How much energy does the Ivory Coast have?

It currently has a capacity of 37.5 MW, but Coulibaly says this is set to expand to 80 MW, with financing for the expansion already approved by the Council of Ministers. The Ivory Coast has vowed to reduce its greenhouse gas emissions by 32% and increase the share of renewable energy in its energy mix to more than 40% by 2030.

Who owns the Ivory Coast electricity company?

With 4 995 employees in 2022 and 54.02% owned by Eranove, the Ivory Coast Electricity Company (CIE) is a private provider that has been linked to the Ivory Coast's government by a concession agreement since 1990.

TotalEnergies and L'Ivoirienne d'Hydroélectricité (IDH) have signed a partnership to develop a 5 MW solar photovoltaic power plant to supply IDH's production site with green energy. This project aims to install more than 8,200 photovoltaic panels, reinforcing IDH's commitment to sustainable development and the energy transition. Ivoirienne d'Hydroélectricité (IDH), founded...

In the context of improving decentralised energy supply conditions in sub-Saharan African countries, Green

Energy for African Citizens (GBE) and the German International Development Cooperation Agency (GIZ) are launching a financing programme based on the results of installations of solar systems for productive use in Ivory Coast.

The agreement was signed between Adama Coulibaly, the Ivorian Minister of Economy and Finance, Jean-Christophe Belliard, the French ambassador to Ivory Coast, and Jobst von Kirchmann, EU's ambassador to Ivory Coast. The fund is allocated within the framework of the Promotion of Access, Smart Grids and Solar Energy project (PARIS).

The launching ceremony of the Training and Certification Programs in Solar Renewable Energy for the benefit of more than 130 agents of the key players in the West African electricity sector held at the Center des M&#233;tiers de l'Electricit&#233; de Bingerville in Abidjan, C&#244;te d'Ivoire on July 5, 2021.
