

Solar floor stand assembly

What is a floor mount stand?

The floor mount stand is provided as a kit that is purchased separately from the SolarEdge Home Battery. This document lists the contents of the SolarEdge Home Battery Floor Mount stand kit. It provides a guideline for assembling the stand and securing the battery on the stand.

What is a solar panel stand?

The perfect stand for laying out in the grass or mounting permanently. These stands are fully adjustable and come with all the necessary hardware! They provide everything you need to get up and running, all at once helping the environment too! Even better, our solar panel stands are adjustable which means it can be placed on any surface.

How do you connect a battery to a floor mount inverter?

Hang the battery on the wall mount. Turn OFF the battery. Open the wiring gutter on the left side of the floor mount base and lay the wires in place. Pass the cables through the wiring sleeve on the top left side of the floor mount base and connect to the battery. If installing more than one battery per inverter, use branch connectors.

How do you install a floor stand?

Tighten the two Wall Bracket M5 (5/32" Allen) screws on each wall bracket at 17N·m (150lbf·in). Assemble the decorative cover. If installing more floor stands arranged front to back, position the additional base mount against the front of the already positioned base mount and repeat the floor stand assembly process for steps 1-8.

How do you install a floor mount?

Set the height of the base mount using a 5mm Allen wrench to adjust the screws for each floor mount base leg. Use a spirit level to make sure that the base is level. Hold the back holder so the six studs face you, and the connecting strut with four holes is at the bottom.
