

Solar kit europe India

Are custom solar kits available in India?

Custom Solar Kits have been launched by Loop Solar in India in 2023. There are several advantages to ordering solar equipment as kits. This includes lower equipment cost, availability of capital subsidy by government of India, net-metering readiness, lower transportation cost, lower GST, less hassle and fast installation.

What is a solar kit?

We offer a range of solar kit that are pre-designed and pre-engineered packages ready to install at site for solar integrators and solar EPC companies. The solar kit comes with our very high efficiency solar modules which offer various advantages such as higher solar energy harvest, a linear 25 years warranty, IP67 junction box, ARC coating, etc.

Why should you buy a rooftop solar kit?

Create your own rooftop solar kit - ordering solar equipment as a kit reduces both hassle and cost (equipment cost and transportation cost) without compromising on choice of components for customers or EPC companies. Only the components mentioned in the form above are included in the kit.
