

After discussing the possible barriers to the deployment of solar energy in Uzbekistan, the report presents a roadmap for solar energy by 2030. It provides examples of international best practices in solar energy deployment from IEA ...

To enhance the use of solar energy resources in Uzbekistan, we recommend the government consider incorporating, as appropriate, all measures listed in the roadmap into its solar energy strategy toward 2030 and beyond.

On the French side, ties with Uzbekistan in this area are pretty strong. On 25 May 2020, Uzbekistan announced it had signed a EUR55.8 million (&#163;46.3 million) loan contract with AFD to support the hydropower sector. French companies are also playing a prominent role in the development of sustainable energy in Uzbekistan.

The new Scaling Solar 2 Project is a major scale-up of solar energy generation with an additional 440MW of capacity in two regions of Uzbekistan, building on the success of the Navoi Scaling Solar 1 Project.

The project is part of the 1GW solar program mandate of International Finance Corporation (IFC). The project is anticipated to consist of three lots with a total capacity of 500 MW to be tendered out for the private partners under DFBOM model.

The project is the first photovoltaic solar power plant in Uzbekistan. After completion, it will be the solar power plant with the largest power generation capacity per unit in Uzbekistan and even the entire Central Asia region.
