Homeowners across New Jersey are making the switch to solar energy as the cost of solar panels in New Jersey has become more and more affordable in recent years. The following guide covers everything you need to know about the cost of solar panels in New Jersey.

Solar panel costs come down, but batteries don't. The life of a system before component replacement is 10 years. You are replacing panels AND batteries. Over all, it's more expensive than PSEG. And if there's a storm, you're stuck paying out to fix or replace the system. PSEG, it's free. Also, solar panels are highly toxic when thrown away.
