How much does it cost to install solar panels in Spain?

The cost of installing solar panels varies based on your energy needs and location in Spain. On average, it costs between EUR6,500 and EUR10,000(excluding batteries). SolarMente offers an all-in-one solution combining solar panels, energy storage, and smart power management, you can enjoy self-consumption and maximise your energy savings.

Are solar panels a cheaper alternative source for Spanish homes?

The advances produced in the development of renewable energies have provoked significant decreases in the cost of solar panels, turning solar energy into a cheaper alternative source for Spanish homes. Therefore, talking about prices implies taking into account materials, labour and legal procedures.

How much does a solar self-consumption photovoltaic installation cost in Spain?

The price of a solar self-consumption photovoltaic installation for a single-family home is around EUR1,500 for each kilowatt generated(taxes not included). If we take into account that a typical household consumes around 4.4 kW, the initial cost of a project of these characteristics in Spain would be around EUR6,500

Should you install solar panels in Spain?

If you're reading this, it's very likely that you live in Spain or have a second home there. And you are looking for installing solar panels to save on your electricity bill. You want to forget the volatility of prices, and that's understandable.

Is solar energy a good investment in Spain?

As you can see, solar energy has indisputable potential in Spain. Installing solar panels in Spain means significant financial savings from day one, making you the owner of your energy. Similarly, the use of renewable sources such as solar energy leads us to an energy model based on sustainability.

How much does a solar panel cost?

As for the type of solar panel, these are mainly self-consumption or storage panels. With the former, all the energy produced is spent in the house and the surplus is injected into the grid, with prices ranging between 2,000 and 3,000 euros per kW installed, according to Alicante-based solar energy provider Solarmassel.
