What we need from you: A Completed Load Detail. What is this? It is a sheet that allows us to know what appliances you have (for e.g. lights, refrigerators, fans, televisions, the run-time of the appliances and the amount of battery back-up you require. We use this information provided to size a solar system specific to your needs. This lets us provide you with a cost.

The battery can store the extra energy produced from solar panels during the day to avoid using electricity at a more expensive rate. The peak time-of-use (TOU) rates can be double the price compared to off-peak rates. In such a scenario, a solar battery storage system can come in handy for using electricity without having to pay such a high price.
