

Solar panel services Jamaica

How much do solar panels cost in Jamaica?

As of Mar 2023, the average cost of solar panels in Jamaica is \$2.92 per watt making a typical 6000 watt (6 kW) solar system \$12,283 after claiming the 30% federal solar tax credit now available. This is lower than the average price of residential solar power systems across the United States which is currently \$3.00 per watt.

How can I buy solar energy equipment in Jamaica?

The Development Bank of Jamaica (DBJ) offers loans to assist in buying solar energy equipment. The loans can be obtained at an interest rate of 3 per cent over a maximum period of 5 years with a 5 per cent service charge. The funds for these loans are provided by the World Bank.

What is the biggest solar project in Jamaica?

Paradise Park, a US\$65-million investment, is the largest solar project in Jamaica, which is projected to significantly decrease the country's dependence on fossil fuels, while helping the island to reach its sustainable development targets. The solar farm is designed to supply 37 megawatts of power.
