

Solar panel warehouse Togo

Is the new Togo solar power plant sustainable?

H.E. Mohammed Saif Al Suwaidi, Director General of ADFD, said: "This new Togo solar power plant truly reflects the level of sustainable impact we can achieve through the ADFD and IRENA renewable energy development program."

Who developed AMEA Togo solar?

The plant was developed by AMEA Togo Solar, a subsidiary of AMEA Power- a global renewable energy developer based in the UAE. IRENA remained heavily involved in the project throughout the process, brokering discussions between the Togolese government, ADFD and AMEA Power, and presenting solutions to construction and financing challenges.

What is the Sheikh Mohammed bin Zayed solar power plant?

The now fully operational 50-megawatt (MW) Sheikh Mohammed Bin Zayed solar power plant, financed under the IRENA-ADFD Project Facility, will supply reliable, clean electricity to hundreds of thousands of homes and businesses in the country.

This project is the first utility-scale renewable project in Togo. With additional phases, 70MW Solar PV+ 4MWh BESS has been operational since June 2023. Furthermore, AMEA Power signed a power purchase agreement and ...

Dubai-based renewables company AMEA Power LLC will expand a solar park in operation in Togo, adding 20 MW of additional capacity and a 4-MWh battery storage system to ensure electricity supply at night.
