

Are solar power plants a reality in Cameroon?

The facilities, which have been in service for several months, serve the northern part of Cameroon. Large-scale solar energy production is now a reality in Cameroon. On Friday 22 September 2023, Cameroon's Minister of Water and Energy Gaston Eloundou Essomba inaugurated two photovoltaic solar power plants in the Far North and North regions.

How to increase solar energy in Cameroon?

In order to enhance solar energy in Cameroon, the government recently signed an agreement with China to carry out feasibility studies aiming at installing several light points in Yaounde. Recently, Cameroon obtained eKiss (energy-keep it simple and safe) mobile off-grid photovoltaic systems from Antaris Solar.

Who owns Maroua & Guider solar power plants?

These are the first large-scale photovoltaic solar energy production facilities. The electricity produced by the Maroua and Guider solar power plants is therefore supplied to Eneo, the public utility majority-owned by the British investment company Actis. Maroua Guider Solar Company is said to have invested CFA 17 billion, or nearly EUR26 million.

On June 2, Joule Africa announced a \$200 million investment plan to develop solar power in Cameroon. This announcement comes on the heels of another successful agreement between Joule and the Cameroonian government: the building of a hydroelectric plant on the Katsina Ala river. This project alone is expected to raise the country's capacity to ...

On Friday 22 September 2023, Cameroon's Minister of Water and Energy, Gaston Eloundou Essomba, inaugurated the 36 MWp Maroua and Guider solar photovoltaic power plants. The facilities, which have been in service for several months, serve the northern part of Cameroon. Large-scale solar energy production is now a reality in Cameroon.
