

Solar power company Solomon Islands

How long do solar panels last in Solomon Islands?

The majority of solar energy systems installed in Solomon Islands last less than 2 years due to bad system design and poor user training. Superfly's systems are designed to last a minimum of 5 years (for basic systems) and 10 years for premium systems.

How many solar homes are there in the Solomon Islands?

"Solomon Islands currently has one of the lowest levels of access to electricity in the region, with over 85% of the population of Solomon Islands still without access to electricity and for this project alone, we received over 6,000 applications to obtain only 2,000 solar home systems," said Mr Aimaea.

What is the Asian Development Bank doing in Solomon Islands?

The Asian Development Bank is working in partnership with the Government of Solomon Islands and Solomon Power to convert electricity networks in five provinces almost entirely to solar power. This project involves the Asian Development Bank in putting a grid-connected solar power plant into operation by SIEA.
