Scuba diving at Cocos Keeling islands is nothing short of spectacular. Fabulous visibility, pristine coral reefs, abundant marine life and all the trappings of a tropical paradise without the flashy resorts. Yes, it is isolated and it takes some effort to get there, but this is more than offset by the quality of the diving, the friendly locals ...

If going with the flow is how you roll, you will love the Cocos Keeling Islands. They have a small - very small - country town vibe. Your activities revolve around the exquisite lagoon whether they be snorkelling, diving, fishing, parasailing, or just relaxing under a coconut palm reading a book while inhaling the frangipani infused air

Skim across the lagoon and beyond in your very own 3.7m private hire boat. Choose from two vessels, a 6H for non-licensed guests which is perfect for exploring the southern end of the Cocos Keeling Islands, and a 20H for those with a boat license and wish to go further into blue waters.

By installing solar power in Home Island Cocos (keeling) Islands, the average household could save 8.64% of their monthly mortgage, resulting in approximately a \$74227 saving over the lifetime of their loan, assuming they put the electricity savings toward their home loan, a \$500,000 loan, with a 4% interest rate over 30 years.

The Cocos (Keeling) Islands (Cocos Islands Malay: Pulu Kokos [Keeling]), officially the Territory of Cocos (Keeling) Islands (/ ' k o? k ? s /; [5] [6] Cocos Islands Malay: Pulu Kokos [Keeling]), are an Australian external territory in the Indian Ocean, comprising a small archipelago approximately midway between Australia and Sri Lanka and relatively close to the Indonesian island of Sumatra.

We would expect a 6kW solar system in Home Island Cocos (keeling) Islands to produce 26.40kWhs of solar energy over the course of a year. How much this is actually worth depends on how much you pay for power and how much solar power you send to the grid.
