How much does a 2kWh solar generator cost?

A basic home 2kWh solar generator will cost you between \$1,600 and \$2,000. You could probably power a couple of appliances, keep lights on and recharge devices with a 2kWh solar generator. Our favorite 2kWh solar generator is the BLUETTI AC200P - or upgrade to the AC200MAX, which can be extended by adding additional power packs.

Is a solar generator worth it?

A solar generator may be worth it depending on how you use it. The cost of the generator easily pays for itself if you live somewhere that receives ample sunlight and you utilize the energy from the generator as a home backup. Alternatively, if you frequently go on road trips, a solar generator is also worth it.

Can a solar generator power a home?

A few years ago, solar generators were mostly good for camping and charging your phone in emergencies. Now, you can find a solar generator that can power your entire home. In fact, you can find a solar generator that's perfect for your specific application whether it's home backup, camping, RV or off-grid living.

Which solar generator kit should I buy?

If you want a complete home backup solar generator kit that's ready to use, I recommend this EcoFlow Delta Max solar generator + 220W solar panel combo. It's enough to keep your most essential appliances powered and devices charged during an extended blackout. Complete solar generator kit with foldable solar panel.

How to choose a solar generator capacity?

When deciding solar generator capacity, you have to balance between runtime (how long you can power your appliances & electronics) and weight (as well as price). A higher capacity solar generator will power your stuff for longer, but it will be heavier and more expensive.
