

# Solar power generation government support project

What is the \$7 billion solar for all program?

Oops, something went wrong. Check your browser's developer console for more details. Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

Who will receive a \$7 billion solar grant?

Washington - Today, April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

What is a solar for all grant?

Grantees must use all Solar for All program funds to enable communities that fall within the scope of EPA's definition of low-income and disadvantaged communities to deploy and benefit from residential distributed solar.

How will EPA's 60 solar for all program help low-income households?

EPA estimates that the 60 Solar for All recipients will enable over 900,000 households in low-income and disadvantaged communities to deploy and benefit from distributed solar energy. This \$7 billion investment will generate over \$350 million in annual savings on electric bills for overburdened households.

Are mobile solar generator programs eligible for solar for all?

Yes, mobile solar generator programs enabling low-income and disadvantaged communities to deploy and benefit from distributed residential solar are eligible to apply to Solar for All.

Does EPA fund solar for all projects?

EPA will not fund individual projects through Solar for All. A Solar for All program is a program that ensures low-income households have access to residential rooftop and residential-serving community solar energy, often through providing financial support and other incentives.
