

Solar power in Fiji

Does Fiji have solar power?

According to the annual reports of Energy Fiji Limited (EFL), there has been some solar electricity generated from 1998 to 2007 by a solar PV system that was commissioned in November 1997 (FEA 2016). In 1998, this system generated around 12 MWh of electricity and was doing well for almost 6 years.

Where is Solar Fiji located?

Lot 41-42 Pilling Road, Nasinu, Suva. Solar Fiji supplies and installs the highest quality solar power systems in the South Pacific. Based in Nasinu, Suva, we specialize in Off Grid and Grid Connect Solar Power Systems and are official distributors of world leading brands such as Victron Energy, Canadian Solar, Narada Batteries and QCells.

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

Why should you choose Solar Fiji?

As an official partner of Victron Energy, our quality solar products and services are designed to maximize the longevity of your system, providing energy efficiency and cost savings for the long term. If you're looking for a reliable and experienced renewable energy service provider in the South Pacific, look no further than Solar Fiji.

How many solar panels are installed in Fiji?

In total, around 4 MW of solar PV is installed with some grid-connected solar systems planned and many off-grid solar systems planned by the Fiji Department of Energy with funding from the Fijian government and overseas donor agencies.

What is the largest solar PV system in Fiji?

The largest system to date is Six Senses Fiji Resort on Malolo Islands in the Mamanuca Group that has a 1 MW solar PV system with 4 MWh of Lithium ion battery storage system (SEANZ 2017).
