

Solar roofing panels Pitcairn Islands

Can solar energy replace fossil fuels on Pitcairn Island?

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy system.

What is rooftop solar for Islands?

Rooftop solar for islands Swimsolprovides affordable and durable marine floating &rooftop solar PV systems for the tropics, where land space is limited. We make solar energy a hassle-free experience by handling all the tech &maintenance. We work with ultra-luxury resorts and small businesses alike - always aiming to provide great service.

Are the Pitcairn Islands Green?

Pitcairn Islands, a group of five islands with a total area of 47 km2 and which constitute one of the most remote archipelagos in the world, turn to safer, greener energies that best meet the needs of the population. Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy.

The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy ...

We are offering you high quality 3wp till 340wp panels which are on MNRE guidelines and MNRE Approved. Quality Manufactured in highly automated state of the art facilities with rigorous in -house quality control meeting, the highest standards.

The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy system.

Sika® SolarMount-1 (SSM1) is an aero dynamic, lightweight mounting system designed for the installation of framed, 60-cell, rigid Photovoltaic (PV) panels to mechanically fastened or fully ...

ISLAND SOLAR POWER Swimsol provides affordable and durable marine floating & rooftop solar PV systems for the tropics, where land space is limited. We make solar energy a hassle-free experience by handling all the tech & maintenance.

We are proceeding to International tender for the next stage to build design and install Pitcairn's Solar Power

Solar roofing panels Pitcairn Islands

System. We are hopeful, if Covid restrictions allow to have the process completed by early 2022. Stay tuned to our blog for updates on this exciting project!

We are offering you high quality 3wp till 340wp panels which are on MNRE guidelines and MNRE Approved. Quality Manufactured in highly automated state of the art facilities with rigorous in ...

Sika® SolarMount-1 (SSM1) is an aero dynamic, lightweight mounting system designed for the installation of framed, 60-cell, rigid Photovoltaic (PV) panels to mechanically fastened or fully adhered Sika® single-ply membranes on flat roofs.

SunRoof manufactures 2-in-1 solar roofs and innovative façades that generate electricity without having to install traditional photovoltaic modules. This is the best replacement for a regular roof, offering the highest efficiency, the lowest carbon footprint, and a unique aesthetic.

We conducted thorough surveys to determine the best mounting system for their specific roof type. Since installing the solar PV system, the client has enhanced their environmental ...

We are proceeding to International tender for the next stage to build design and install Pitcairn's Solar Power System. We are hopeful, if Covid restrictions allow to have the process completed by early 2022. Stay tuned to ...

We conducted thorough surveys to determine the best mounting system for their specific roof type. Since installing the solar PV system, the client has enhanced their environmental credentials and saved substantially on their energy bills.
