

Solis inverter Canada

Who are Solis solar inverters?

Solis is one of the world's largest and most experienced manufacturers of solar inverters supplying products globally for multinational utility companies, commercial & industrial rooftop projects, and residential solar systems.

How many MPPTs does a Solis inverter have?

The Solis Inverter 125-255kW three-phase utility-scale 1500 Vdc PV string inverters have 9 MPPT(125K) or 12 independent MPPTs (185 & 255K) with high-rated DC inputs that support "Y" type connection on the DC side, up to 30A per DC input. Maximum string input current 15A, support bifacial modules access.

What is a Solis S6 hybrid energy storage inverter?

ON SALE PRODUCTS! The S6 (Series 6) hybrid energy storage inverter is the latest Solis US model certified to IEEE 1547-2018, UL 1741 SA & SB, and SunSpec Modbus, providing economical zero-carbon power from an all-weather (NEMA 4X / IP 66) high-efficiency PV string inverter.

Where can I get support for my Solis inverter?

Our Australian operation has been established to provide local sales, after sales service, and warranty service support to the Solis range of inverters. Support for the Solis inverter is provided through an established network of fully qualified and accredited Service Technicians located across Australia.

Is Solis a good inverter brand?

Not only did Solis receive the EuPD Top Inverter award for three years running, but it was also ranked third among Asian inverter brands for bankability by BloombergNEF and saw its strongest quarter ever in Q3 of 2019.

Can I extend the warranty on my Solis residential inverter?

You also have the option of extending this warranty for an additional 5 years by registering your residential inverter to have a full 10yr locally backed Optimum warranty. This is available on all Solis residential inverters from 0.7-20kw in size, single and three phase.

Solis, a global leader in solar inverter technology, recently announced the launch of a new 1,500V line of string inverters in North America -- the Solis S6 250-350K. The power classes available within this family are 250kW @600VAC, 300kW @690VAC and 350kW @800VAC, providing many options for repowering and new development of large-scale systems.

Step 3: Once you have agreed to the terms, you will be taken to the "Extended Warranty" interface. Here, you have several options: Search for an Inverter: Find an inverter to extend the warranty by plant name, serial number, or email address. Extendable Devices: This section shows all inverters in your account that are eligible for a warranty extension.
