The Solomon Islands borders the Solomon and Coral Seas to the south, the Pacific Ocean to the north and east, and shares maritime borders with Papua New Guinea to the west and with Vanuatu to the southeast. The country occupies a land area of 28,466 km<sup>2</sup> (10,938 mi<sup>2</sup>) and consists of nearly 1,000 islands (6 large main islands and over 900 smaller islands), ...

The Maldives" energy mix is powered almost entirely by diesel (more than 80%), along with some other forms of liquid fossil fuels. Power has been provided by small generators on each of the islands, putting the country at risk to volatile oil prices and also to environmental disasters, should there be problems shipping the fuels to the islands.

Solomon Power also supports the installation of small scale grid connected micro embedded generators that convert renewable energy into electricity that can be used in your home or business premises. Sources of renewable energy can include solar photovoltaic cells (PV) or micro-turbine systems.

Finally, what sets Solomon Islands apart from other destinations in the South Pacific? (JT): The country has always been off the beaten track. This gives the opportunity for the Solomon Islands to claim characteristics setting it apart from its South Pacific neighbours: uncluttered, uncongested, unspoiled and unlimited adventure to name but a few.
