South 8 Technologies, Inc. develops, manufactures and licenses LiGas™, the liquefied gas electrolyte for advanced lithium-ion batteries that solves lithium-ion's "fire and ice(TM)" problems. South 8's patented LiGas electrolyte reduces fire ...

Vietnam has actively pursued its major expansion plan in the disputed South China Sea, nearly doubling newly-reclaimed areas in one year, a new report said. ... CSIS/AMTI/MAXAR Technologies. At Barque Canada Reef on Nov. 2, 2023, at least two such dredgers could be seen clearly on the image provided by the U.S. satellite imaging company ...

SAN DIEGO, Aug. 16, 2023 - South 8 Technologies, Inc., the San Diego cleantech company innovating safer and higher performance electrolytes for the next generation of lithium-ion batteries, has closed a strategic investment with Lockheed Martin Ventures, the venture arm of Lockheed Martin (NYSE:LMT), a global leader in defense and aerospace technology, with ...

From Vietnam's northern capital of Hanoi to the coastal city of Da Nang to Ho Chi Minh City (HCMC, formerly Saigon) in the south, regional universities churn out hundreds of well-trained IT and ...

The arrival of 5G technology is expected to significantly accelerate the popularity and adoption of Internet of Things (IoT) in Vietnam. 5G, as the fifth generation of wireless mobile communication technology, offers several key advantages that will enhance the capabilities and applications of IoT devices and systems such as Enhanced Connectivity, Increased Device ...

SAN DIEGO - South 8 Technologies, a pioneer in electrolyte formulations for next-generation lithium batteries, today announced it has raised \$12M in Series A financing, led by Anzu Partners with participation from LG ...

Porsche Ventures makes a strategic investment in South 8 and its liquefied gas electrolyte LiGas for high performance lithium-ion batteries SAN DIEGO (April 30, 2024) -(BUSINESS WIRE)-South 8 Technologies (South 8), a lithium-ion battery innovator, today announced Porsche Ventures, the venture capital arm of the sports car manufacturer, Porsche ...

Digital transformation is reshaping the world. Its impact is evident. Nations use technology to grow their economies and improve governance. Vietnam stands out in this landscape. The country is advancing ...

The \$9 million proposed award will scale South 8's LiGas electrolyte manufacturing and integrate LiGas into battery cell manufacturing with partner Nanotech Energy. SAN DIEGO (September 23, 2024) --South 8 Technologies (South 8), is thrilled to announce that we received a notice of proposed award in the hashtag#PowerForward Battery Manufacturing ...

About South 8 Technologies. South 8 is driving the future of e-mobility with lithium-ion battery innovations. The company pioneered LiGas, a liquefied gas electrolyte that dramatically improves ...

SAN DIEGO (April 30, 2024) - (BUSINESS WIRE)- South 8 Technologies (South 8), the developer of LiGas, a liquefied gas electrolyte for advanced lithium-ion batteries, announced today that it is collaborating with NanoGraf to deliver higher energy, safer, and lighter batteries for soldiers in the battlefield. South 8's \$6.4 million subcontract with NanoGraf will support the ...

South 8 Technologies | 4,198 followers on LinkedIn. Delivering breakthrough energy storage solutions to advance a clean energy future. | South 8 Technologies, Inc. develops, manufactures and licenses LiGas, the liquefied gas electrolyte for advanced lithium-ion batteries that solves lithium-ion's "fire and ice(TM)" problems. South 8's patented LiGas electrolyte reduces fire risk ...

Funding will support the commercialization of LiGas, South 8's liquefied gas electrolyte technology that's a safer, higher performance alternative to standard liquid electrolytes. SAN DIEGO, Aug. 16, 2023 /PRNewswire/ -- South 8 Technologies, Inc., the San Diego cleantech company innovating safer and higher performance electrolytes for the next generation of ...
