

# South Sudan smartflower solar panel cost

How much does a smartflower solar panel cost?

Now, let's talk about the numbers. How much does the SmartFlower cost? Before applying for all incentives and tax credits, the SmartFlower solar panel system ranges in price from \$25,000 to \$30,000 with the average cost to install at \$27,000. There are two models that you can choose from, and this is why the price can vary.

What is smartflower solar?

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This 'smart' solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop panels.

How much does a smartflower cost?

The base Smartflower itself is \$39,950 plus installation and shipping charges, and the Smartflower Plus is \$65,500 plus shipping and installation. Installation costs vary by difficulty and complexity of each setup, ranging from roughly \$3,000 to \$7,000, according to Gordon.

How is smartflower different from other solar panels?

A quick glance at Smartflower makes it clear how different this solar sculpture is from the solar panel systems we're used to seeing on rooftops or ground-mounted arrays. Aside from its looks, its dual-axis tracking capability allows Smartflower to generate up to 40% more energy than typical fixed solar panels, Gordon said.

Where can smartflower solar panels be installed?

Smartflower's solar solutions can be installed in virtually all locations across North America. The company is actively expanding its network of certified installers and is committed to securing installation services in areas where it currently lacks a presence.

What is the warranty on a smartflower solar panel system?

The SmartFlower solar panel system has a system warranty of 5 years and a module performance warranty of 25 years. This also differs from other solar panel systems that have 20 to 25-year warranties for both the system and performance. Even most ground-mounted systems with sun-tracking capability have 10-year system warranties.

By comparison, a traditional 4kW rooftop solar power system costs about \$10,000, or \$2,250 per kilowatt. That is about half the price of this Smartflower system. Both kinds of solar panel installation give 25-year warranties.

The SmartFlower cost is currently \$16,900 for a single unit, but the Smartflower costs \$22,000 for a complete system with batteries included. Read on for a price comparison of the Smartflower vs rooftop solar panels and
